-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I (claims 1-17) and Composition Species E (polymer having moieties of units I and III) in response filed 2/9/2004 is acknowledged. It is noted that in the previous Election/Restriction requirement mail 1/7/2004, the Examiner inadvertently not clearly pointing out that there are two types of species: Composition Species (Species A to A''''-G'''' and A''''''-G'''''' to A''''''''-G''''''''') and Structure Species (Species A''''-G'''' (a laminate of a conductive polymer and a support material, see claim 11) and Species A''''''-G'''''' (a support material impregnated with a conductive polymer, see claim 12)). The Examiner apologizes for the incomplete restriction requirement, and notes that in the absence of an election of Structure Species, the election response is incomplete.

Applicant is required, in reply to this action, to elect a single Structural Species, in addition to the previously elected Group I and Composition Species E, to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

Art Unit: 1771

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

It is noted that claim 16 appears to be a de facto duplicate of Species A'-G'.

The following claim(s) are generic: claims 15 and 17.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Each of aforementioned Species are distinct, and are patentable (novel and unobvious) over each other.

2. A telephone call was made to Leonard Mitchard on 3/24/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
